Time:	10:30-12:30
Venue:	Department of ICT
In-Charge Faculty:	Dr. Dilber Mehta
Number of Participants:	120
Type of Event:	Kite Making

Description: Kite Making

We usually are not aware of the patience and hard work behind making kites, while enjoying the kite flying and screaming "KAAIPOCHEE" on the day of Makar Sankranti. This competition brought to light the hard work and the perfection required to make these wonderful flying objects filling the sky with colours. The enthusiasm in the students was visible to make the kites as creative as possible. Leaving a message that hard work, patience and perfection can lead us to great heights which proves to be true in both situations, while flying a kite and also in our routine life.
